

## **Cover Crops.**

Joanne Thiessen Martens, Research Associate, Department of Plant Science, University of Manitoba, Research Associate, Organic Production Agronomy. Joanne Thiessen Martens works in the Natural Systems Agriculture program in the Department of Plant Science at the University of Manitoba. She earned a B.Sc. in Agroecology at the University of Manitoba in 1999 and has since been active in research and extension related to ecological and organic cropping systems. Over the years, her focus areas have included cover crops, crop-livestock integration, soil fertility management in organic crop production, and farm system co-design. She has contributed to more than a dozen peer-reviewed articles, as well as numerous extension resources for farmers in Canada, Brazil and Malawi.

## **Redesigning Canadian Cropping Systems for profitability, sustainability, and resilience.**
