

Brian L. Beres, Ph.D., P.Ag.

Occupation: Research Scientist, Lethbridge Research & Development Centre, AAFC

Dr. Beres is a research scientist at Agriculture and Agri-Food Canada's Lethbridge Research Centre in Alberta, developing innovative and integrated crop management systems. He publishes in the areas of agronomy and crop science and has been the author or co-author of 60 peer-reviewed research articles and 2 book chapters. He and his co-authors were the recipients of the 2013 Canadian Journal of Plant Science Best Paper Award. Dr. Beres is Past-President of the Canadian Society of Agronomy, an active member of the American Societies for Agronomy, Crops and Soils. He serves as Co-Editor-In-Chief for the Canadian Journal of Plant Science, Associate Editor for Agriculture and Environmental Letters, and received the 2014 Outstanding Associate Editor award. Dr. Beres has several international collaborations and represents Canada on the Research Committee of the International Wheat Initiative, where he also recently developed an Expert Working Group for global agronomy wheat research.

**Speech title: Exploring G x E x M synergies to manage Fusarium head blight**
