

Committees / Comités (2012-2013)

In addition to the CPS Executive Board there are three types of committees in CPS; [Standing Committees](#), [Subject Matter Committees](#), and [Ad Hoc Committees](#). The membership of each committee varies according to the type of committee and is comprised of selected members of the CPS Board and/or Society. The current membership of each committee is listed in the Directory of Members, provided to all members of CPS electronically.

Becoming a member of a CPS committee is an excellent way to meet other plant pathologists from across Canada, and to contribute to your scientific society. If you would like to become involved in CPS Committees, please contact the President of CPS and indicate which committee you would like to contribute to.

Executive Board

President	➤	Fouad Daayf
